Crusher wear parts

Metso Outotec O-Series

Application

Designed for Metso Outotec Nordberg® C Series™ jaw crushers, HP Series™ cone crushers, GP Series™ cone crushers and Symons™ crushers.

Keep control of your operation at an affordable cost with Metso Outotec O-Series crusher wear parts. They are reliable crusher wear parts designed by our Metso Outotec engineers to fit and function perfectly with your Nordberg® C, HP, GP and Symons™ crushers.

Reliable crusher wear parts at an affordable cost

Metso Outotec O-Series crusher wear parts provide perfect balance between performance, affordability and reliability to keep you in control of your operation.

Reliability

With Metso Outotec O-series, you get your crusher wear parts from one reliable source. Our extensive O-series are specifically designed for Metso Outotec crushers. Rest assured, Metso Outotec has what you need to keep your process up and running.

Crusher wear parts where and when you need them

To stay ahead of the competition, your equipment must run efficiently. Getting the wear parts you need on time is essential to avoid costly downtime. With strategically located distribution centers and local distributors, our wear parts are available when you need them.

When safety matters

Using the appropriate lifting tool for a specific wear part is crucial. When installing Metso Outotec crusher wears, our specially designed lifting tool can be used. These tools improve working conditions and make it possible to carry out installations quickly, safely and efficiently.

Benefits

- Reliable crusher wear parts at an affordable cost
- Designed and perfected for Metso Outotec crushers
- Specially designed, fit-for-purpose tools for safe installation and maintenance
- High availability and support worldwide
